Education

Galvanize/ Hack Reactor, Los Angeles
Software Engineering Immersive, 2020

University of California, Irvine
BA in Economics, 2018

El Camino Community College
AA in Arts and Humanities, 2016

Interests

Applications

Know It All Trivia

- Created an iOS/Android trivia application using React Native in a team
- Implemented a categories select page and persistent team creation page for continuous play.

Web Scale System Design - Alo Yoga

- Tested and determined between a SQL (PostgreSQL) and NoSQL (MongoDB) database to store 10 million rows; optimized database querying through indexing columns to run in <10ms.
- Stress tested local and deployed (EC2) application using K6 and
- Horizontally scaled service by deploying two servers and a round-robin load balancer (NGINX) to handle up to 1000 requests per second with a 0% error rate and 70ms average latency.

Front End Item Detail Mock - Glossier

- Generated 100 realistic products and stored in a MySQL database.
- Created a RESTful API using Express.js
- Cloned the Glossier.com item detail page using HTML, CSS, React focusing on the navigation bar.
- Created a search bar tab rendering results from database on keypress.
- Created best seller tabs for several product categories, rendering the best selling products on hover of the tab.
- Created a proxy server to stitch four modules together to render a complete mock item detail page.

Professional Experience

Food Safety and Security Manager 8/2018 - 1/2020

Maruzen of American, Inc. Dominguez Hills, CA

- To maintain SOP, SSOP, O-SOP by monitoring, managing resources, keeping records, and training employees at 2 facilities.
